[Important information](#)

R.M.S. Titanic: Extremely rare "TITANIC", straight-line handstamp on a cover from France to Washington D.C. dated March 19th 1912. The "TITANIC" handstamp is believed to have been applied in Paris in transit to the port of Cherbourg, where the mail was to have been put aboard *Titanic*. However, due to complications with completing *Titanic's* finishing touches, the date of her maiden voyage was rescheduled from March 20 to April 10. When the French Post Office became aware of this schedule change, the mail, having already received the "TITANIC" handstamp, was placed on the next available ship to America.

An interesting article related these rare covers is available titled "*Titanic, The Mail That Missed The Boat*" from Stamp Insider dated October 2008. 15cms x 12cms
